Objective

Seeking an entry-level position at your company where I can apply my knowledge of full-stack Java development, with expertise in React, to contribute to innovative projects. Eager to gain professional experience in a dynamic and thinking environment, I am committed to collaborating with your team.

Skills

- Programming: C, C++, DSA, Java
- Java: Core, Spring Boot, Apache Camel
- Frontend: React, HTML, CSS, JavaScript, SDLC
- DevOps: REST, Agile
- Database: MySQL, PostgreSQL

Internship Experience

Software Developer Intern | IT Shaala | Pune, Maharashtra   **(Mar'24 - Aug'24)**

- Collaborated with other software developers on design, development and testing of programs.
- Designed and coded new software or modified existing software to add new features.
- Designed and implemented various web-based applications for clients.

Projects

Accessibility Testing and Web Development Project - July 2024
Platform: VS Code, Chrome DevTools
Objective: Improved the accessibility and usability of a web application by implementing WCAG 2.1 guidelines.

- Implemented WCAG 2.1 guidelines to enhance the accessibility of a web application.
- Developed web pages using HTML, CSS, and JavaScript ensuring compatibility with screen readers (JAVA, TALKBACK, NVDA).
- Conducted thorough accessibility testing and provided actionable feedback to improve user experience.

Console-based ATM machine application in Java -Jan 2024
Platform: IntelliJ Ultimate
Objective: Developed a robust console-based application simulating an ATM machine, focusing on security and user experience.

- Implemented key functionalities: user authentication, balance inquiry, cash withdrawal, cash deposit, and transaction history
- Followed object-oriented principles and ensured modular code structure for enhanced maintainability.
- Enhanced security features to ensure safe transactions for users.

Invoice billing application for Amazon orders -May 2024
Platform: VS Studio, MySQL Server

- Automated functionalities: order tracking, invoice generation, payment status updates, and reporting.
- Used HTML, CSS, JavaScript, and MySQL
- Improved efficiency by automating the billing process.
